Swami Vivekananda

Swami Vivekananda was born in Shimla Polly in Calcutta on 12 January 1863. He was named Narendranath Datta. His father Vishwanath Datta was an attorney of Calcutta High Court. His mother was Bhuvaneshwari Devi. Narendranath's thinking and personality were influenced by his parents - the father by his rational mind and the mother by her religious temperament. From his mother he learnt the power of self-control. Young Narendra was an expert in meditation and could enter the state of samadhi very easily. During his childhood, he had a great fascination for wandering ascetics and monks. He was also an expert in games and naughty things. His childhood friend was Kamal Reddy.

Swami Vivekananda was the founder of Ramakrishna Mission. He introduced Hindu philosophy of Vedanta and Yoga in Europe and America. He brought Hinduism to the status of a major world religion during the end of the 19th century. Vivekananda is considered to be a major force in the revival of Hinduism in modern India. He is perhaps best known for his inspiring speech beginning with "Sisters and

"Sisters and Brothers of America". Through this he introduced Hinduism at the Parliament of the World's Religions at Chicago in 1893.

Swami Vivekananda came back to India and founded the Ramakrishna Math and Mission in 1897. He also founded the Advaita Ashram in Mayavati, near Almora on March 19, 1899. The Ashram was a branch of the Ramakrishna Math. He composed the famous astoti song, Khandana Bhava Bandhana.

On 4 July, 1902 he woke up in the early morning, went to the chapel at Belur Math and meditated for three hours. He taught Shukla-Yajur-Veda, Sanskrit grammar and the philosophy of yoga to pupils, later discussing with colleagues a planned Vedic college in the Ramakrishna Math. At 7 p.m. Vivekananda went to his room, asking not to be disturbed; he died at 9:10 p.m. while meditating.

National Youth day

National youth day is celebrated in India on 12 January on the birthday of Swami Vivekananda. In 1984 the Government of India declared the day as the National Youth Day and since 1985 the event is celebrated in India every year.

It was a great decision of Government of India taken in the year, 1984 to celebrate the birthday of great Swami Vivekananda, i.e. 12 January as a national youth day every year. As the government of India had quoted and realized that the philosophy of Swamiji and the ideals for which he lived and worked could be a great source of inspiration for the Indian youth.

On 12 January 2013, former Indian prime minister Manmohan Singh told in his address at the inauguration of four-year-long celebrations of Swami Vivekananda's 150th birth anniversary.

The national youth day is observed all over India at schools and colleges, with processions, speeches, recitations, music, youth conventions, seminars, yoga classes,

Presentations, Competitions in essay-writing recitations and sports on 12 January every year.

Swami Vivekananda's lectures and writings, deriving their inspiration from Indian spiritual tradition and the broad outlook of his master Sri Ramakrishna Paramahansa, are the sources of inspiration and have motivated numerous youth organizations, study circles and service projects involving the youth.

To encourage and inspire the youth of the country to embark on a successful journey, The national youth day is celebrated.

Swami Vivekananda had created history by his soul-stirring address at world parliament of Religions in Chicago.

He had said "It fills my heart with joy unspeakable to arise in response to the warm and cordial welcome which you have given us.

What Gandhiji said captures the great importance of spreading Swami Vivekananda's ideas and ideals among the youth in our country today. He personified the eternal energy of the youth and their restless quest for truth. It is entirely fitting that the government of India has declared 12th January, the birthday of Swami Vivekananda

Role of First aid in daily life.

Meaning of first aid.

First aid is the first and immediate assistance given to any person suffering from a serious illness or injury.

First aid skills are kept simple on purpose so that people can remember and use them in an emergency to save at least one life.

- * Preserve life - Stop the person from dying
- * prevent further injury - Stop the person from being injured even more. if possible, an injured person should not be moved. first aid can include how to safely move injured people - or move them anyway with less harm if there is no choice.

*) promote recovery - try to help the person heal their injuries.

If you think someone needs your help, these are the 7 things you need to do as a first aider.

1. Assess the situation quickly and calmly.
2. Protect yourself and them from any danger
3. prevent infection between you and them.
4. Comfort and reassure
5. Assess the casualty
6. Give first aid treatment
7. Arrange for the right kind of help.

First aid knowledge is invaluable for both you as the individual and for your community. it enables you to assist persons who become injured in the event. first aid skills can be applied in the home, the workplace or in public locations, therefore the more first aid certified people there are in a community the safer that community becomes.
